WANT NEWS OF A FIGHT

Washington Officials Wonder at Sampson's Delay.

INTELLIGENCE FROM HIM IS EXPECTED MOMENTARILY.

Washington, May 24—Special—There is every evidence of expectancy in naval circles here. News from Sampson is awaited anxiously, but up to a late hour none had been received. A fight with the Spanish fleet is overdue, and the fact that it has not taken place is attributed to the superior dodging of the Spanish admiral. Sampson might force the entrance to Santiago and give battle within the bay, but such a move would be extremely hazardous, and it is not believed he will attempt it unless all efforts to bring the Spaniards out into the open sea fail. Something definite is looked for before the close of the day.

Will Take to Piracy.

Washington, May 24—Special—The proposition made in the Spanish cortes yesterday to issue letters of marque to privateers has created much comment here. If such a step is taken Spain will practically place herself under the ban of outlawry. Under the law of nations privateering is piracy, and those who engage in it might as well raise the black flag. No mercy can be shown to them in case of their capture. All on board a privateer render themselves subject to the penalty of death. They would swing from the yard-arms of our ships of war as fast as taken, and the world would applaud.

If the proposition meets with favor at Madrid this government will promptly notify the powers of Europe of its intention to treat Spanish privateers as pirates. This may have its effect upon Spain. It will, at least be a compliance on the part of this government with the rules of international law, and be full justification for whatever may be done towards discouraging piratical modes of warfare.

Lee Off For Tampa.

Washington, May 24—Special—Gen. Fitzhugh Lee's departure for Tampa, which was noted yesterday, is believed to be significant of a forward movement of the troops there. It is understood that he is to command the first division of the army invading Cuba. He left Richmond prepared for a campaign in the field, and although he declined to speak of the orders he had received he hinted that he would not be long upon American soil. He is impatient to be off, and was visibly elated on receipt of his orders from Washington. His parting from members of his family was that of a soldier going to face his country's enemies. It was plain to be seen that he expected active service shortly.

Spaniards Bottled Up.

Washington, May 24—Special—The belief continues to grow that the Spanish fleet is bottled up in Santiago harbor. No advice to this effect has been received here, but it is lack of news to the contrary that strengthens the belief that Cervera has been trapped. Fast scout boats were sent to Santiago as soon as it became known that the Spanish had made that port. As they have not yet reported to the department authorities, they believe the Spaniards are still in the harbor. Definite news as to the exact situation at Santiago is expected at any time now.

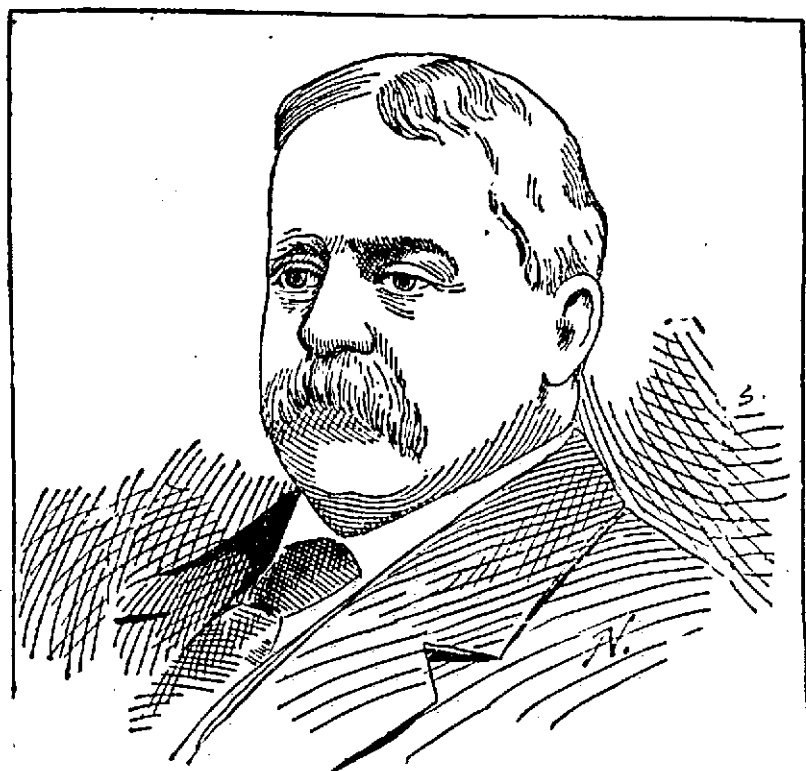

Believe Sampson Has Fought.

Washington, May 24—Special—While no official information of a battle between Sampson's squadron and the Cape Verde fleet has been received, high officials are confident the fight has taken place. Unofficial dispatches says Cervera divided his squadron and that two of his cruisers had a disastrous encounter with the Americans.

Still at Santiago.

Madrid, May 24—Special—Official dispatches from Havana say Cervera's fleet is still in Santiago harbor.

New York, May 24—Special—A London cable to the Mail and Express says a big battle has occurred in the vicinity of the Windward Passage. The American squadron closed in on Cervera, and completely destroyed the Spanish squadron.

Oshkosh, Wis., May 24—The first application for a pension due to circumstances arising in the present war has come from Oshkosh. The applicant is the widow of Private William Hook, of Co. F, Second regiment volunteers, who died at Camp Harvey from bowel trouble.

Mrs. Hook is entitled to a pension of \$12 per month under the law of July 14, 1862, her husband having died in the service of the United States after having been duly enrolled.

OLD CATERER DIES.

O. C. Fox, Well Known As a Railroad Hotel Keeper, Is Dead.

Milwaukee, May 24—O. C. Fox, well known as the former proprietor of the Fox house on Reed street, died at Portage, Wis., Saturday night. The Fox house was run in connection with the old Chicago, Milwaukee & St. Paul passenger station, before the Union station was built. Twenty-five years or more ago Mr. Fox had the reputation of being the best railroad hotel caterer in the West. In those days the railroad hotel was not a lodging house with a lunch counter attachment. It was a traveler's home with all that the name implies and Mr. Fox did a large business here. His success was before the dining car came into general use on the railroads. He had at one time simultaneously, the dining and lunch room business of the St. Paul Road at Milwaukee and Portage. He will be remembered by all old time traveling men.

SULPHUR AGAIN CHEAP.

Paper Mills Secure a Supply at Lower Rates Than Those Recently Prevailing.

Appleton, Wis., May 24—The price of sulphur dropped last week from \$30 to \$25 a ton, in consequence of the arrival in New York of boats with about 7,000 tons of the substance for the mill trade. Some 10,000 tons are about bound for this country from Canada, for the dominion government has not yet paid any attention to the protest made by the Spanish consul against its exportation to this country. For a time the shortage of the brimstone supply threatened to interfere seriously with the paper business, and

two mills were closed for a lack of the yellow crystals.

SUPPLYING LAKES WITH FISH

Large Numbers Being Distributed by the State Hatchery Car.

The Wisconsin fish car "Badger" was in the city this morning for a brief stay, being on its way from Brodhead back to the state fish hatchery at Madison.

In Sugar river, near Brodhead, were deposited large quantities of fish of the white bass variety.

The distribution of brook trout from the Madison hatchery has been in operation for several weeks, and will continue until the hatch has been disposed of. The distribution of rainbow trout does not commence until May 1. The demand for trout is larger this year than over, and applications are pouring into the superintendent's office in a constant stream. It is impossible for the commission to supply this demand.

OFF FOR AN EUROPEAN TRIP

DEWEY IS ALL RIGHT

Waiting For Troops Before Occupying the Town of Manila.

HOW HE TREATED A SAUCY GERMAN SEA CAPTAIN.

Manila, via Hong Kong, May 24—Special—Admiral Dewey continues to maintain a strict blockade. Covite and the arsenal are still in his possession, but no attempt has been made to land men in Manila. A Spanish transport has been captured by the fleet. Dewey has plenty of coal, food, and ammunition, but needs troops to hold the city. It is said the situation in Manila is desperate. All food is scarce, and available supply will be consumed in two weeks. Riots are threatened in the city. It is reported that the captain of the Spanish revenue cutter Callao, recently captured by Dewey, will be shot for not returning the fire of the American vessels. It is also reported that Admiral Montejó, who commanded the Spanish fleet, and who was erroneously reported as having been killed after the battle by the natives, will be court-martialed for cowardice.

Dewey has had difficulty with the German consul at Manila, but gained his point. The consul tried to land provisions from a German ship, but Dewey declined to permit it, and when the consul said he would force the landing with the aid of two German cruisers, the admiral said he would fire upon the warships if they attempted to carry out the consul's threat. The provisions were not landed.

They Are British Vessels.

Washington, May 24—Special—It is reported today that the mysterious craft that have been seen off the Newfoundland banks are British vessels. The fear that they might be Spanish warships caused a panic in New England. British warships have been on the lookout for Spanish vessels that might attempt to get coal from British ports.

Wounded Spaniards.

Key West, May 24—Special—Juan Java a Cuban officer, arrived here this morning. He says eleven hundred soldiers are in Santa Clara hospital, all of whom were wounded during the bombardment of Cardenas and Cienfuegos. He also says a large number of people are dropping dead in the streets of Santa Clara daily.

Key West Is Anxious.

Key West, May 24—Special—This city remains in a state of extreme tension. News expected from the fleets of Schley and Sampson has not yet arrived, but is expected momentarily. The hospitals and everything else have been put in readiness, and all hands are awaiting developments. Great activity prevailed in naval circles last night.

Will Hold the Philippines.

Washington, May 24—Special—That the United States has no thought of relinquishing the Philippines is evidenced by the fact that Gen. Merritt is to proclaim martial law. His instructions have practically been drafted by the president himself.

Quiet On the Coast.

Key West, May 24—Special—A dispatch boat just in reports everything quiet along the Cuban coast. The flying ships' location at present is a secret. The blockade continues, and is thoroughly effective.

The Mangrove Safe.

Key West, May 24—Special—The Mangrove is reported safe by the Tecumseh's commander. She was sighted off Cuba yesterday.

Mr. and Mrs. Joseph Churchhill Make an Equitable Division

Mr. and Mrs. Joseph Churchhill, of this city, who have the distinction of being interested parties to a divorce action at the age of seventy-five years each, have already commenced to divide the effects they have cherished together all these years. At their home they managed to get together and divide the household furniture, as

well as other utensils about the place. Each took a half and both seemed satisfied. Mrs. Churchhill has gone to live on the farm, while her aged husband, the defendant in the present action, will make his home in this city.

IMPORTANT CHANGE IN STREET WORK

COUNCIL CUTS LOOSE FROM OLD METHOD.

Driveway On Residence Streets to Be Reduced in Width, and City and Property Owners to Share Expense of Macadamizing—To Grant a Franchise—Routine Work.

A two hours' session of the common council was held at the city hall last night, at which:

A new plan for macadamizing residence streets was adopted, dividing the expense between the property owners and the city or ward. The franchise of the Janesville Telephone Company was presented and read the first and second times.

It was decided to use stone from the Millmore quarry in macadamizing.

Plans were ordered for the opening of East street to Oakland avenue.

The mayor was ordered to borrow \$1,500; C. L. Fifield was appointed a member of the library board; bills paid, etc.

All the aldermen were present. Health Officer Gibson's bond was approved and filed. Two illegal tax certificates were ordered cancelled, one in favor of G. S. Sutherland for \$12.95 and one for O. E. Bowles \$2.74.

The application of the Janesville Telephone company for a franchise was referred to the judiciary committee. Later the ordinance, as amended, was given its first and second reading.

A report from the Janesville Water company of pipe laid was on motion of Alderman McLean received and filed.

Bills Are Opened

Change in Street Work.

Ald McLean presented the following report which was adopted:

To the Mayor and Common Council—The committee on highways would respectfully report: That since the last meeting of the council your committee have visited Madison and Rockford for the purpose of examining and ascertaining the manner and methods there followed in macadamizing streets and in making street improvements, and found:

That in Madison, during the past twelve years some twenty miles of macadamized streets have been made, and that the expense of the intersections and crosswalks are paid by the city, and that the balance of the expense is charged to the property fronting thereon, according to the lot frontage, and payable in annual payments extending over a period of ten years.

In Rockford your committee found that in the past five years some twenty miles of streets have been macadamized, and that the payment of the same is charged to the property fronting thereon upon a basis of twenty-five cents per running foot, and that the curb and intersections at corners are paid by the city.

For the purpose of adopting some uniformity of action, your committee would respectfully recommend, that in all street improvements in which macadamizing shall be ordered that the street be macadamized to a width not exceeding thirty-four feet on all streets in the city, excepting on business streets and along the line of the street railway, and that the depth of the macadam be eight inches in the center and four inches at the curb, and so rounded as to make the center of the street twelve inches at the crown; and that the expense of the intersections and crosswalks be paid by the city, and that after deducting the same from the total cost of improvements so made that fifty per cent of the same be charged to the property benefited by such improvement, according to the lot frontage.

Your committee would further report that the portion of the expense of doing said work chargeable to the city, be paid out of the ward fund in the ward where such improvement is made, but that the expense of furnishing crushed stone shall be paid out of the general fund, together with the expense of any improvement in front of any buildings owned by the city.

Your committee would further recommend that along the line of any street upon which such improvement shall be made that the curb shall be made of soft white pine lumber two inches thick and twelve inches wide.

Respectfully submitted,

J. B. McLEAN,
ED. F. CARPENTER,
F. H. FIFIELD,
P. H. KOTHMAN,
JOHN W. PETERS,
Committee.

BUILD A NEW JAIL

The County Board of Supervisors meets next month, at which meeting something must be decided upon in relation to the county jail.

What form the "something" will take remains to be seen, but it would appear that there was but one thing to do—build.

The State Board of Control, acting under a law delegating to that body the power, has condemned the present jail, and the State Board of Health, after an official inspection, reports, in effect, that the Board of Control acted wisely in so doing.

Under the circumstances, then, what can the County Board do but to build? Nothing, as it seems to be generally admitted that the old jail cannot be remodelled to advantage, and that "any money spent in that direction will be thrown away." If this is the case, there is no economy in making temporary repairs.

Law breakers are human beings, and humanity rebels at the thought of treating them like cattle, much as they may deserve such treatment.

Rich and progressive Rock county can afford a new jail if one is needed, and the fact that one is needed seems to be unquestioned.

Then why not build?

The State Board of Control can order that no prisoner can be confined in the old building because of its unsuitability for the purpose. The board has the power to issue and enforce such an order, and its execution would entail heavy expense on the county.

The board must decide the matter at the coming meeting, and if the facts in the case have been correctly set forth at previous meetings, the only wise business course for the board to adopt, is to accept the inevitable and build.

Of course, the expense will be quite heavy, and expense should be avoided—especially in war times—but there is such a thing as "saving at the pigst, and wasting at the bung."

A. R. HALL BOBS UP.

Mr. A. R. Hall, of anti-pass notoriety, is out with a two column article in yesterday's Milwaukee Sentinel, attacking Governor Scofield for not living up to party platform pledges in general, and for ignoring Mr. Hall's anti-pass resolution in particular.

The "gentleman from Dunn" neglects to state how his pet resolution was born. He fails to explain that after repeated effort to induce the committee on resolutions to give him a hearing, that in desperation he took the floor of the convention, and for ten minutes made a laughing stock of himself in a frantic effort to gain an audience. The resolution and the author of it were considered a burlesque at that time and are so regarded throughout the state today.

Mr. Hall is a hobbyist. He should move to Iowa where men of like orotic natures colonized years ago, and by their united strength succeeding in bankrupting every railroad in the state except the trunk lines.

Wisconsin has no time for men who seek to gratify political ambitions at the expense of industries, be they railroads or public enterprises of other descriptions.

Mr. Hall's attack on Governor Scofield is harmless.

General George M. Randall has been assigned to the Department of the Pacific, and will go to the Philippines with General Merritt.

To build a new jail means a considerable expense but the prisoners cannot be boarded at the jails of other counties for nothing.

Two Janesville men will see service at the Philippines—Gen. George M. Randall, and Lieut. Frank Postwick, of the Charleston.

All the tax payers should offer their services to the government in the war on the "damage suit industry."

A man named A. R. Hall, of Knapp, Wis., attacks Governor Scofield. Who is Hall? And where is Knapp?

If President McKinley feels that he

needs a new strategy board, several can be made up right here in Janesville.

And it is equally certain that the city must provide a lock up before August 1.

The actions of A. R. Hall would indicate that he was "afraid of the cars."

The city should fight the damage suits the way Dowey fought the Spaniards.

The land admirals are the busiest people in the world these days.

THEY SAW STRANGE SIGHTS

Janesville Boys Were Greatly Pleased With Their Southern Trip

Since the boys of Co. A. have taken their trip through the sunny south they have not neglected to write home and tell of their first travels through a strange section of the country where they little expected to be a few weeks ago. Their letters are many and novel.

One young man says that he has forwarded home two young alligators. Another one says the climate and country are simply grand, but that he wished he was home.

Still another writes for his folks to send him money so that he can see the sights.

A former local clerk writes home that he can't sleep nights, and that he is taking a nerve tonic.

"I never saw so many colored folks before in all my life," writes one, "and they all seem to be an awfully black and of all sizes and shapes."

NURSING A MANGLED HAND

Joseph Abbott Received Painful Injuries in a Machine.

Joseph Abbott, who went from this city to Menominee, Mich., with the Richardson shoe factory, is at present nursing a badly mangled right hand as the result of an accident. While handling the large two-ton machine that cuts out heavy men's soles, he accidentally caught his hand beneath the machine, which resulted in a bad smashing of his digits.

He will not lose any part of his hand, but it will be several days before he will be able to resume work. In the meantime he is drawing full pay.

An interesting feature of the day will

be the placing of the headstones recently

received from Washington over the

graves of veterans that have heretofore

remained unmarked. A list of

those to be thus remembered was published

in The Gazette of yesterday.

SOCIAL EVENTS OF THE DAY.

The District School, Miss Marie Murdock's

Birthday Party.

The old-time district school at the

Baptist church parlors last evening

was well attended and was the occasion

for much enjoyment. It was quite

a novelty to see grown people in the

role of little boys and girls laboriously

counting their lessons and struggling

to recite. All the participants acquitted

themselves well, and there was no

end of amusement throughout the session.

A choice musical and literary

program preceded the school. The

"Angels' Serenade" was beautifully

sung by Miss Cora Anderson, who was

accompanied by Miss Elizabeth Palmer

on the violin and Mrs. C. L. Clark on

the piano. A recitation by Miss Sadie

Bates, "The Nest of Three Little

Birds," was excellently given. The

piano selections by Miss Laura Burnap

were finely rendered and elicited loud

applause.

Red, White and Blue Party

Mr. and Mrs. E. H. Murdock, of

No. 6 East street gave a patriotic

party yesterday afternoon in honor of

the fourth birthday of their daughter,

Marie. From 4 to 7 o'clock the little

friends enjoyed themselves to their

heart's content. The house and

grounds were decorated with red,

white and blue flags and streamers

and the national colors were seen on

every hand. The little maids who

received the guests were attired in

harmony with the surroundings.

Estes Hardy wearing red, Edna Murdock

white, and the hostess, Marie Murdock

wore a red, white and blue cap. At

supper an elaborate birthday repast

was served. The table was decorated

in red, white and blue and colored

candles and four flags made the birth-

day cake a conspicuous one. At each

plate were little Dowry pails and

sprinkling pots holding the red,

white and blue napkins. The pails

and sprinklers were taken home as

souvenirs. Those present were:

Allan Welch, Frankie Smith,

Jennie Slawson, Leon Myhr,

Vera Nolan, Mildred Holloway,

Frank Blair, Wallace Mills,

Estes Hardy, Daisy Maclean,

Florence Skeby, Billy Maclean,

Harriet Barker, Frank Murdock,

Norothy Wilcox, George Whetstone,

Rayward Burdick, Norris Smith.

Carnival week at Milwaukee, June 27 to July 3, will rival the Mardi Gras at New Orleans. Those having the celebration in charge believe that the Wisconsin festivities will even be more attractive than those of the far famed southern city. At New Orleans there are only three evening attractions. At Milwaukee there will be six days and six nights of endless festivities. The grand pageant, illustrating the history of Wisconsin, will consist of twenty floats. These floats are rapidly nearing completion and are said by the contractor, who has devoted his whole life to this business, to be the finest he has ever yet constructed. Low fares on all roads and boats, will be given for Carnival week.

Mr. John Peterson, of Patonville, La., was very agreeably surprised not long ago. For eighteen months he had been troubled with dysentery and had tried three of the best doctors of New Orleans, besides half a dozen or more patent medicines, but received very little relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy, having been recommended to him, he gave it a trial and to his great surprise, three doses of that remedy effected a permanent cure. Mr. Peterson, a well known merchant of the same place, is well acquainted with Mr. Peterson and attests to the truth of the statement. This remedy is for sale by People's Drug Company, corner of Main and Market streets.

Purchase last season is telling a wonderfully good tale for us now. The wholesale market has advanced to an extent that were we obliged to purchase the same goods as are listed below today we would pay more than we offer them at retail. We maintain the standard of prices however, for the present but wont guarantee them to remain low any length of time.
